

# Year 3 - Science Activities

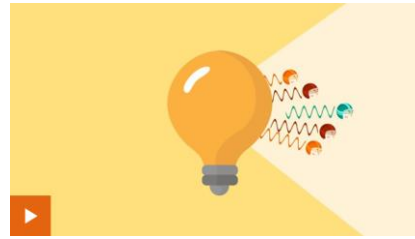

# Light 2

## Vocabulary

# Light

Watch the following videos;  
What is reflection?

<https://www.bbc.co.uk/bitesize/topics/zbssgk7/articles/zqdx82>

Light travels in straight lines

<https://www.bbc.co.uk/bitesize/clips/zyntsbk>

Seeing in the dark - reflective materials

<https://www.bbc.co.uk/bitesize/clips/zs3ygg7>

Challenge question? -  
How do we use reflected light in our everyday lives?

Colour each box as you complete the task!

## Challenge Activity

Can you use a mirror to see around corners?

Mirrors can be used to reflect light. When the mirror hits the light, it bounces off and changes direction. The angle you are holding the mirror at will change which angle the light will bounce off at.
